

Obaiah Mopuri

Bengaluru, India, 562114 | +91 9515485375 | mopuriobaiah45@gmail.com

Professional Summary

Experienced Software Developer with expertise in Sales Force Automation (SFA) projects, skilled in ASP.NET, .NET Core, SQL Server, and JavaScript. Adept at integrating systems with ERP solutions. Strong experience in developing functionalities for van sales, pre-sales. Successfully led projects for clients like **AL AMAL ICE CREAMS**, **LGFMCG**, and **Al Hajery**. Worked on new feature development for **Sadafco** and **Al Rasheed Foods**.

Work Experience

SOFTWARE ENGINEER - WINIT | JULY 2022 – JUNE 2025

Project Experience Summary:

I have 4 years of experience in developing and maintaining web applications and RESTful APIs using **.NET Core**, **ASP.NET MVC**, **C#**, **Entity Framework Core**, **SQL Server**, **JavaScript**, **HTML/CSS**, and **Angular**.

Worked at **WINIT Software Solutions** as a Software Engineer, delivering multiple **Sales Force Automation (SFA)** solutions:

◆ **AL AMAL ICE CREAMS** (Jul 2022 – Feb 2023)

- Developed modules for van sales, inventory, payments, and promotions.
- Integrated with Microsoft Dynamics 365 for customer and product sync via REST APIs.
- Implemented user roles and route/journey plans.

◆ **Fifood & LGFMCG** (Mar 2023 – Dec 2023)

- Built modules for sales return, liquidation, price management, and target tracking.
- Enabled Excel import/export and PDF reporting.
- Worked with SQL stored procedures and views for reporting.

◆ **Panasonic SFA** (Jan 2024 – Jun 2024)

- Focused on ERP data integration using SOAP APIs for stock and invoice data.
- Enhanced dashboards and audit modules.

◆ **Sadafco Project & Al Rasheed Foods** (Jul 2024 – June 2025)

- Developed Excel-based import/export, stock audit workflows, and sales hierarchy views.
- Handled notifications and approval flows for promotions and discounts.
- Built pre-sales, route planning, and warehouse modules.
- Designed email alerts, PDF invoice generation, and role-based access controls.

Responsibilities Across Projects:

- REST/SOAP-based ERP integrations (SAP, Dynamics 365).
- Secure API development, user role management, and database optimization.
- Developed UIs in Angular; backend in ASP.NET Core.
- Used EF Core and Dapper for ORM and optimized querying.
- Actively involved in Agile/Scrum, sprint planning, and client discussions.

SENIOR SOFTWARE ENGINEER – MICRO LABS | JULY 2025 – PRESENT

Project Experience Summary:

◆ UNNATI (July 2025 – Present)

- Worked on **SAP integration** for smooth data exchange between HR, User Management Service (UMS), and Visitor Management Service (VMS).
- Handled **HR module operations**, including employee onboarding, payroll data synchronization, and role-based access control.
- Developed and maintained the **User Management Service (UMS)** to manage user accounts, authentication, and authorization.
- Implemented the **Visitor Management Service (VMS)** for tracking, approval workflows, and visitor access security.
